2. Public question time-N/A
3. Playground report /Playground equipment discussion and update.

An update and history of the play area and equipment was given. A survey is in the process of being completed within the village to find out what equipment would be popular and used. There has already been some feedback. The children's area already in place also needs some work done on it, as highlighted by the regular monthly inspections done by the Local council.

There is currently 47K 106 money to be spent in the village, but 3.3K of this needs to be spent before November 2019. Quotes to be obtained for the work on the children's area first to use this money before the November deadline. Applications for the funding will need to be made, and match funding will be required in the form of grants. Details of the Family and Communities Officer for the Parish have been forwarded on to assist with this.

Other equipment being looked at Multi Use Games Area (MUGA), this would be installed at the bottom end of the Play area. Costs approximately 43K. other possible extensions may be added depending on funding. The Community Association is looking to contribute 10K towards this.

Proposal made to form a committee to meet monthly and then feed into the bi-monthly Parish Council meeting with updates. This to be an agenda item. Representatives from both Community Association and Parish Council to be on committee.

Three quotes to be obtained for the flooring of the children's area by July/August so that decisions can be made in time and applications for the monies made. A cheaper option could be to repair the existing floor. Quotes also to be chased re the fencing of this area also.

The 2 initial quotes already received for both the Children's area refurb and new MUGA to be forwarded to the Clerk.

Date for first meeting of the new committee to be decided at the May Parish Council meeting
